## Honorary Doctor of Humane Letters

### **2003 Recipient**

*The Honorable John W. Snow*

*The Honorary Doctor of Humane Letters is Virginia Commonwealth University's highest form of recognition. Awarded by the president at Commencement, it recognizes the Commencement speaker as well as others who have made outstanding contributions to society through scholarship, humanitarianism, science, art and public service.*

## The Honorable John W. Snow

Commencement Speaker  
Honorary Doctor of Humane Letters

On January 13, 2003, The Honorable John William Snow was nominated by President George W. Bush to serve as the 73rd U.S. Secretary of the Treasury. The U.S. Senate unanimously confirmed the nomination on January 30, 2003, and he was sworn into office on February 3, 2003. As Secretary of the Treasury, he works closely with President Bush to strengthen economic growth and create jobs.

Secretary Snow was Chair and Chief Executive Officer of CSX Corporation, where he successfully guided the transportation company through a period of tremendous change. During his 20 years at CSX, he led the corporation to refocus on its core railroad business, dramatically reduce injuries and train accidents, and improve its financial performance.

Secretary Snow's previous public service includes having served at the Department of Transportation as Administrator of the National Highway Traffic Safety Administration, Deputy Undersecretary, Assistant Secretary for the Governmental Affairs, and Deputy Assistant Secretary for Policy, Plans and International Affairs.

Secretary Snow's knowledge of international industry stems from his tenure as Chair of the Business Roundtable, the foremost business policy group, comprised of 250 chief executive officers of the nation's largest companies. During his tenure from 1994 through 1996, he played a major role in supporting passage of the North American Free Trade Agreement.

Secretary Snow also is recognized as a leading champion of improved corporate governance practices. He is a former Co-chair of the influential Conference Board's Blue-Ribbon Commission on Public Trust and Private Enterprise. He also served as Co-chair of the National Commission on Financial Institution Reform, Recovery and Enforcement in 1992 that made recommendations following the savings and loan crisis.

Secretary Snow graduated in 1962 from the University of Toledo. He later earned a Ph.D. in economics from the University of Virginia where he studied under two Nobel Prize winners. He graduated with a law degree from George Washington University in 1967 and then taught economics at the University of Maryland, University of Virginia, as well as law at George Washington University. He also served as a Visiting Fellow at the American Enterprise Institute in 1977 and a Distinguished Fellow at the Yale School of Management from 1978 until 1980.

## Academic Costume

The academic costume worn at American college exercises derives from the Middle Ages. The oldest universities of northern Europe, such as Paris and Oxford, grew out of church schools, and both faculty and students were regarded in the Middle Ages as a part of the clergy. They wore clerical habits, largely borrowed from the monastic dress of that day, not just on special occasions but as their regular attire.

The head covering of the academic costume developed from the skull cap worn by the clergy in cold weather to protect the tonsured head. In the universities, the skull cap acquired a point on top, which evolved into a tassel. The bonnet with tassel is still worn by degree holders of European universities. In America, it has been replaced by the familiar mortar board, which still retains the medieval tassel.

The hood (the medieval caputium) was originally a covering worn over the head in bad weather, otherwise dropped on the shoulders as the monk's cowl. At first it was worn by faculty and students alike, but in the early 16th century it was restricted to graduates, thus becoming the mark of a degree holder. Today, each college has its distinctive hood lining by which its graduates may be recognized in academic processions. Graduates from Virginia Commonwealth University may wear a hood showing a black chevron on gold background.

The gown comes from the medieval robe and seems to have been borrowed from the habit of the Benedictine monks. In the Middle Ages,

undergraduates, bachelors and masters could be distinguished by the simplicity or intricacy of their gowns. The doctor's gown was often furred, which survives today in the ornamentation found on the doctoral gown. Usually the gown is black, but some colleges have gowns of different colors.

The wide velvet borders extending down the front of the doctoral gown, the velvet bars on the sleeves, and the borders of most hoods are colored according to the scholarly field of the wearer.

## Recipients of Degrees

*Because of rigid time requirements, this program must be printed before the final list of degree candidates and final graduation honor status for undergraduate students can be determined. The exclusion of the name of a student is not to be taken as indication of official status as a nongraduate, nor is the inclusion of a name of a student to be taken as certification of official status as a graduate. Only undergraduate students are eligible for honors designations. These designations do not apply to the degrees received by graduate students.*

# Virginia Commonwealth University

Virginia Commonwealth University is supported by Virginia to serve the Richmond area, the state and the nation through teaching, research, service and patient care.

VCU offers comprehensive undergraduate, graduate, professional and doctoral programs and encompasses one of the largest academic health centers in the nation. With more than \$185 million a year in sponsored research funding, VCU is a Carnegie Doctoral/Research University-Extensive, one of only three institutions in Virginia to be ranked in the top category for higher education in the United States.

Seventeen Centers and Institutes of Excellence — involving faculty from multiple disciplines in public policy, biotechnology and health care discoveries — support the University's research mission.

More than 26,700 students pursue 174 degree and certificate programs through the University's 11 schools and one college. VCU has a full-time faculty of more than 1,600 who are nationally and internationally recognized for excellence in the arts, business, education, engineering, the humanities, the life sciences, social work and all the health care professions. With an annual budget of more than \$1.4 billion and with more than 15,000 employees, VCU and the VCU Health System also have a significant impact on employment and spending in the Richmond region.

VCU has been engaged in a long-range strategic planning effort that has resulted in such initiatives as a visionary master-site building plan, the Virginia BioTechnology Research Park, the School of Engineering, the Carver-VCU Partnership for neighborhood development and, most recently, VCU Life Sciences, a comprehensive undergraduate and graduate program incorporating all aspects of the University's academic and clinical missions in teaching, research and public education.

VCU students and faculty also can be found in locations around the state and around the world. VCU is the only state institution offering an accredited Master of Social Work program in Northern Virginia. The School of Medicine is collaborating with the Inova Health System in Northern Virginia as well to establish the VCU School of Medicine-Inova Division for third- and fourth-year medical students. Eventually, the partnership will expand to include residency training and joint bioscience and clinical research projects. And, the University is in its third year of offering bachelor's degrees in graphic, fashion

and interior design at the School of the Arts in Qatar. In 1998, the University and the Qatar Foundation for Education, Science and Community Development entered into an agreement to establish the school at the request of the Qatar government.

VCU's long-range planning also has sought to protect the future of the clinical health care mission, including providing top quality patient care, indigent-care services and support for the teaching and research mission. The result is the VCU Health System, which was established on July 1, 2000, and comprises all the clinical activities of MCV Hospitals, MCV Physicians and VCU's School of Medicine.

VCU and the VCU Health System have been honored with more than a decade of national recognition for its top quality graduate, professional programs and its medical-care programs by U.S. News & World Report; local, regional and national guides to the best hospitals and best doctors; and professional societies and journals. The University also has been recognized for leadership in community and economic development in the 2002 report, "Leveraging Colleges and Universities for Urban Economic Revitalization: An Action Agenda," by CEOs for Cities and the Initiative for a Competitive Inner City. The report featured two case studies: VCU and Columbia University.

*Congratulations to all!*
